SEEDS OF A LIVING FOSSIL
DAWN REDWOOD ★
(*Metasequoia Glyptostroboidea*)
Department of Agriculture

Dr. Ralph W. Chaney, Professor of Paleontology, University of California, has brought back from China a limited supply of DAWN REDWOOD seed. This ancestor of the Californian Redwood tree had been identified from fossils long before the recent discovery of living trees in remote China.

Dr. Chaney, desiring that these seeds be widely distributed throughout the United States, has generously sent them to us for disposal to the Nursery Trade and Horticulturists. We have them available in packets, each containing about 20 seeds, with planting instructions to anyone making a donation of \$1.00, or more, to the "Save-the-Redwoods-League," to whose order please draw your check.

Terms

This list cancels all previous offers.

Disclaimer: We give no warranty, express or implied, as to the productiveness of any seeds or bulbs we sell and will not be in any way responsible for the crop. Our liability in all instances is limited to the purchase price of the seeds or bulbs.

Prices—are f.o.b. New York.

Weights—net, packing extra at cost.

Payment: Our prices are calculated on a strictly cash basis; customers remitting with their orders will be allowed 1½% discount on tree, shrub, vegetable and flower seeds. All others are quoted net. No charge accounts opened under \$10.

When remitting please add for postage and packing.

We do not sell quantities smaller than those indicated.

Explanation of Signs: C.S.—Clean Seed. D.B.—Dried Berries.

Figures in brackets indicate approximate number of seeds per ounce unless otherwise stated.

Nomenclature for Tree & Shrub Seeds is "Standardized Plant Names" second edition of the American Joint Committee on Horticultural Nomenclature \$10.50 postpaid.

Origin of all seeds offered is available on request. Our aim is to carry seed from the best known sources in many cases there are several such. No attempt is therefore made to include proveniens in this list.

<i>"Free of Chaff" means that we have separated from the seed the chaff with which it is usually sold. The amount of chaff for which you have been paying varies with variety and season. Sometimes the chaff is only 50% of the total but it generally runs more. We have varieties which run 15½ ozs. chaff and ½ oz. seed per pound. Considering that varieties marked "Free of Chaff" are over 98% pure seed, we know that our prices are very reasonable.</i>
